Manage access using export policies 1

Manage access using export policies

Enable Linux client access to NFS servers by using export policies.

This procedure creates or modifies export policies for an [existing NFS-enabled storage VM](#).

Steps

1. Create or modify an export policy for a volume: click **Storage** > **Volumes**, click an NFS-enabled volume, click **More**, and then click **Edit Export Policy**.
2. Click **Select an existing policy** or **Add a new policy**.
